

CECCATO BELTAIR PRO 50C3M COMPRESSOR

The BeltAir PRO is designed for professionals seeking reliability and performance. With its capability to reach a maximum pressure of 10 bar, it caters to high-pressure applications seamlessly. Its design emphasizes durability, ensuring that it not only meets but exceeds your operational needs. From tractor service stations to diverse high-pressure tasks, BeltAir PRO is the trusted choice.

Ceccato's BeltAir PRO integrates cutting-edge piston technology, ensuring consistent and high-quality performance. Designed to cater to professionals, its technological features guarantee reliability, durability, and efficiency in every task.

Features:

- **Durable Performance:** Our proven, reliable pump ensures an extended compressor lifespan and quieter operations.
- **Filtered & Regulated Air:** Ideal for demanding painting tasks.
- **Enhanced Cooling:** A large ventilation fan boosts cooling efficiency, optimizing performance.

Model 50C3M Specifications:

- Motor Power: **2.2kW(3.0hp) 230v/50hz/1ph/15amp**
- Tank: **50L**
- Max Pressure: **10 bar**
- Weight: **56Kg**
- Dimensions (LxWxH): **930x400x760**
- Air Displacement: **393l/min (13.8cfm)**
- Air Connection: **Highflow- CEJN315/NITTO type**
- Ordering No: **8431 0257 26**
